

ASML	ASML Berlin GmbH
We are looking for students from the degree programmes	Betriebswirtschaftslehre Logistics and Supply Chain Management Maschinenbau Photonik Wirtschaftsingenieurwesen
We offer	Internship Working student position Graduate position School internship Apprenticeship
Sector	Semiconductor industry
Number of employees	44.000
Locations	Headquarter: Veldhoven (Netherlands) Development and manufacturing site: Berlin
About us	ASML is a leading high-tech company headquartered in the Netherlands. We design and manufacture the world's most advanced lithography systems, which semiconductor manufacturers use to produce integrated circuits, or computer chips. Our customers include all of the world's leading chipmakers, including Intel, Samsung, and TSMC. Our technology is at the heart of the electronic devices that inform, entertain, and connect us. Every day, you use products powered by chips that would not exist without ASML technology. Together with our partners, we drive innovation to enable more affordable, powerful, and energy-efficient microchips for the future. ASML Berlin At our Berlin site, more than 1,700 employees develop and manufacture highly precise key components for ASML lithography systems. With expertise in optics, mechanics, and electronics, our teams play a vital role in advancing the technology behind the world's most sophisticated semiconductor manufacturing equipment.
