Sector	Building services engineering (TGA)
Number of employees	105
Locations	Berlin and Ludwigsfelde
About us	Based in Ludwigsfelde near Berlin, Germany, climtech GmbH is a family-owned company specializing in building services engineering (TGA), founded in 1999. Since 2024, the company has been part of STRABAG Property and Facility Services (PFS), combining the agility and expertise of a medium-sized specialist with the strength and resources of an international group. With more than 100 employees, climtech GmbH specializes in the interdisciplinary planning, installation, and maintenance of technical building systems. Our core competencies include measurement, control and automation systems (MSR/BMS) as well as electrical engineering solutions for modern commercial buildings and industrial facilities. A key differentiator is our in-house production capability. Supported by qualified automation and control technicians and our own switchgear and control panel manufacturing workshop, we provide customized, turnkey solutions from a single source, covering everything from engineer.
