About us	**The accelerator for intelligent technology — built for real impact.** At the HANGAR Startup Center, we develop solutions for the real challenges facing rural regions. And you can be part of it. We provide an environment designed to accelerate growth: high-quality programs, modern workshops and office spaces, as well as real-world testing facilities. Our network of industry and public-sector partners opens doors to valuable opportunities. Our goal is clear: To make your startup visible, investment-ready, and scalable. HANGAR is designed for technology-driven startups based in Brandenburg that are less than five years old and ready to unlock their full potential.
