About us	Fahrzeug-Sicherheitsprüfung GmbH & Co KG (FSP), a member of the TÜV Rheinland Group, is one of Germany's leading vehicle inspection and expert assessment organizations. With over 750 partners and more than 145 inspection stations nationwide, FSP inspects all types of vehicles – from bicycles and classic cars to trucks and construction machinery – and provides accident damage assessments. Beyond statutory services such as the main vehicle inspection (HU) under §29 StVZO and classic car classification under §23 StVZO, FSP offers specialized services including forensic vehicle analysis (ultrasound, X-ray, thermography), assessments of agricultural and construction equipment, and evaluations of bicycles and e-bikes. Partners collaborate within a franchise system: FSP provides its brand, marketing support, software, and comprehensive partner care, offering engineers a reliable path into successful self-employment. Permanent employment positions are also available. Apply now!
