We offer	Internship Working student position Cooperative Bachelor's/Master's thesis Trainee position Dual degree programme School internship
Sector	GNSS and Telemetry/Telematics
Number of employees	15
Locations	Wildau
About us	eEntwicklung.net GmbH we develop innovative software in relation to GNSS and Telemetry/Telematics in Wildau. As ISO 9001:2015 certified software company we work together with other companies worldwide. For example, our solutions are used on oil rigs in the North Sea, in mines in South Africa, and for monitoring innovative battery solutions. In doing so, we are consistently guided by our company motto: "Simple is simply better." For several years, we have successfully supervised students of telematics and computer science from Berlin and Brandenburg through internships, as well as bachelor's and master's theses.
