Locations	Berlin, Köln
About us	Who we are status C is an SAP consultancy specialising in intralogistics. With offices in Berlin and Cologne, we have been digitising logistics processes for over 20 years. Our team of around 50 combines in-depth SAP expertise with in-house software development and supports companies in industry and retail with the implementation and further development of their SAP landscape. How we work At status C, there are no traditional hierarchies. We work according to the principle of self-management: everyone takes real responsibility, makes their own decisions and plays an active role in shaping the company – from day one. The result: lean structures, short decision-making processes and an environment where you can really make a difference. We have already been recognised as a Great Place To Work® on several occasions. What to expect You don't need any prior SAP knowledge. What counts is a process-oriented mindset, curiosity and the desire to really understand things.
