SusRES 2020

1st Joint German-West African Conference on Sustainable, Renewable Energy Systems

1-2 July 2020, Université de Kara

[CALL FOR PAPERS]

Leading topic:

„Sustainability through Smart Applications“

Renewable Energy Systems are, in times of climate change, a fundamental technology to reduce the usage of climate-damaging fossil energy sources with limited availability and replaces them with sustainable energy sources. Furthermore, regenerative energy sources can bring solutions to power hamlets as “off-the-grid electricity solution” in regions without power supply. Together with the increasing role of digitization and the development of smart applications, new technologies arise, which will play an ever-increasing role in future energy issues. This paradigm shift places new demands on research and education and stretches well beyond national borders. The Conference on Sustainable, Renewable Energy Systems (SusRes) forms a platform for addressing these topics and for exchanging scientific expertise and pedagogical approaches within university teaching.

Prospective authors are invited to submit an abstract of their contribution, which will be reviewed within a double-blind review process. Once the paper is accepted, the authors are asked to rework their paper according to the reviews and submit the full paper or poster contribution before the final paper submission deadline. All accepted works will be eligible for an award in the respective category, except those whose author or paper does not meet the requirements. Please find more information regarding the awards and the conference at www.susres2020.org.

Please submit your contribution

Addressed Topics:

- » Renewable Energy
- » Machine Learning
- » Industry 4.0
- » Intelligent Automation & Robotics
- » Smart Grids
- » Predictive Analytics
- » Energy Efficiency
- » CPS & IOT(IIOT)

Important dates:

- » 31/3/20 Deadline for Abstracts
- » 30/4/20 Notification of Acceptance
- » 22/6/20 Full-Paper Submission

sponsored by

Deutscher Akademischer Austauschdienst
German Academic Exchange Service

Important Information

- » **The requested language of abstract and contribution is English.**
- » The abstract should not exceed 2 DIN A4 pages (presentation including discussion 20 minutes)
- » Abstracts, as well as Full-Paper submissions, are to be submitted in electronic form in MS Word or PDF format (max. 10 pages for full-papers and max. 3 Pages for poster contributions) via the conference management system <https://www.conftool.org/susres2020>

Contact: Steering Committee: Prof. Dr.-Ing. Jörg Reiff-Stephan, Prof. Kou santa AMOUZOU, Prof. Dr. Assiongbon ADANLETE
Conference Organizing Committee: Ron van de Sand, Juliana Castañeda Jiménez
